Work Experience

IT & Accounts Intern, SciTec, Princeton, NJ, USA **(**May 2021 - August 2021)

- Led a term-length audit of the firm's IT asset inventory; designed and implemented a repeatable census methodology that cut future audit lead times by approximately 50%, documented via Jira and Confluence.
- Coordinated cross-office communications to reconcile inventory records & wrote Python scripts to collect, upload, and reconcile inventory data across offices, replacing a manual process and improving asset accountability.
- Supported accounting operations through preparation and distribution of biweekly contract expenditure reports.
- Evaluated enterprise software vendors and contributed to procurement recommendations.

Non-Profit Consulting Extern, PwC, Plainsboro Township, NJ, USA **(**June 2022 - August 2022)

- Engaged in the strategy consulting process and learned how to create value for clients based on their vision & mission.
- Leveraged deep research to analyze complex problems ranging from fundraising and development, stakeholder management, impact measurement, utilizing consulting frameworks to help identify problem areas in the client's operations and propose solutions.
- Learned to gather, analyze, and visualize data to inform operating problem areas and synthesize possible solutions.
- Built and delivered client facing presentation synthesizing data driven insights and recommendations.
- Chaired weekly extern focus groups, improving team coordination and cohort efficiency.

Leadership & Service

College Application Advisor & Tutor, MyMentor, Remote (August 2021 - December 2023)

- Advised domestic and international students through the U.S. college admissions process.
- Conducted individualized coaching sessions covering application strategy, extracurricular planning standardized testing, & essay development.
- Brainstormed college application essay topics and critiqued application essays according to content, structure, language, and grammar.
- Mentored students through application timelines, recommendation procurement, school decisions, research, LORs, majors selection, etc.

Member, Princeton University Sailing Team, Princeton, NJ, USA **(**September 2022 – May 2026)

- Practiced 2–3x weekly on the Delaware River, competing in intercollegiate regattas across the Northeast, sailing Zim 420s & FJ dinghies.
- Spring 2024: Crewed for A-fleet boat at Admiral's Cup Regional Championship.

Chorister & Undergraduate Deacon, Princeton University Chapel, Princeton, NJ, USA **(**September 2021 – May 2026)

- Participated in weekly liturgical services, choral performances, and performed in avant-garde ticketed concerts as a chorister
- Served as undergraduate deacon, supporting service operations and fostering congregational engagement.
- Selected as a student speaker at Princeton University's Opening Exercises for the Class of 2026.

Member, E-Club Forge, Princeton, NJ, USA **(**September 2022 – March 2023)

- Served on business acceleration team for *Instant Replay Fashion* startup founded by Grace Anne Mccooey '26.

Research

Department of Economics Senior Thesis, Princeton University, NJ, USA **(**September 2025 – April 2026)

- Authored 60-page independent empirical statistical analysis with robust theoretical motivation, thorough robustness checks & data viz.
- I instrumented Gyourko, Hartley & Krimmel's WRLURI dataset, in concert with ACS microdata to construct and analyze housing affordability metrics across U.S. metros in R & Stata and determine the primary local policy determinants of housing affordability.
- Applied Panel Fixed Effects LSDV & DiD regression to evaluate the relationships between housing policy and affordability metrics.

Department of Economics Junior Paper, Princeton University, NJ, USA **(**January 2025 – April 2025)

- Tested a novel hypothesis that excess saturation of degree holders could be a significant contributor to demand-pull housing cpi increase
- I instrumented CPS microdata in a DiD study design to isolate the effect of degree saturation on housing affordability.

Skills

Programming and Analytic: Python (Pandas, NumPy, PyTorch, Keras), R (Tidyverse, Tidymodels, caret), Stata, SQL, IPUMS

Software: Office365 (Excel, Powerpoint, Word, Copilot etc), Google Workspace Suite, Jira, Confluence

Languages: German (B2 CEFR)
